

# About Systemic Therapy

---

- Why do you believe systemic therapy is a possible treatment option?
- How many treatments will I receive?
- Should I have someone drive me to treatments?
- What side effects may occur and how will they be managed?
- What kind of work or activity limitations will I have? For how long?
- Can I take vitamins, supplements, herbs, medicinal marijuana, etc. while on this treatment?
- What is my prognosis?
- What type of follow-up will I need?
- Do I need regular scans?
- Should I get a second opinion?
- Should I consider enrolling in a clinical trial? Why or why not?

**Systemic Therapy**  
(sis-TE#-mik THAYR-uh-pee)  
Treatment using substances that travel through the bloodstream, reaching and affecting cells all over the body.
